- ☐ How to control font-size on a pop-up, like an alert() box?
You can't because that 'skin' belongs to the browser proper.
- ☐ How to flush the output buffer in a document.getElementById('id').innerHTML?
It doesn't appear easy to do so.
- ☐ Recursion, Stacks and Equivalences
- ☐ Algorithm animation
- ☐ Coding 'boot camps' provide value by pre-loading hooks for learning, both incidental and systematic.
- ☐ Mouse Events: See www.w3schools.com/jsref/obj_mouseevent.asp
onclick(),
ondblclick(),
onmousedown(),
onmouseup(),
onmouseenter(),
onmouseleave()
- ☐ Project: Build a simple text editor in a web page
- ☐ Project: Build a simple table editor in a web page
Tag table data to build interactive tables
use onclick() with a table cell address
edits that cell
- ☐ No matter what software we write, the government can assert a right to it:
See DFARS 252.227-7013
