☐ Maximum size of cookies is 4096 bytes (4K).

☐ Maximum number of cookies is 20, therefore 80K storage possible.

☐ Setting cookie expiration before current date
results in deletion of that cookie.

☐ document.cookie returns a list of name value pairs.

☐ Setting the name to a null value deletes the cookie.

☐ Cookies and tracking pixels serve similar roles.

☐ Flash cookie is a different beast, larger storage capacity.

☐ Routines:
writeCookie(), readCookie(), setCookie(), getCookie(),
changeCookie(), inspectCookie(), expireCookie()
extractCookie(), etc.
